Sir:

This is in response to the office action mailed June 20, 2005. A Petition for extension and check therefor accompanies this Response.

Claims 1 to 24 are rejected under the judicially created doctrine of double patenting over claims 1 to 23 of U.S. Patent No. 6,559,554, or claims 1 to 37 of U.S. Patent No. 6,313,545.

In response thereto, Applicant files herewith a terminal disclaimer in compliance with 37 CER 1.321(c) to overcome this rejection. The terminal disclaimer is signed by Warren Finley, Managing Director of Wader, LLC, the assignee. A Statement under 37 CER 3.73(b) is attached to the Terminal Disclaimer.

A request to record the Assignment from the original Applicants and Inventors is being filed at the USPTO. However, enclosed with this Response is a copy of the Assignment which it is hoped will enable the Examiner to proceed to enter the Terminal Disclaimer submitted herewith.

Favorable reconsideration and allowance of the application is now respectfully requested. If anything further is required by the Commissioner, kindly contact the undersigned at (818)710-2788.
